CROCHET FOR ALL (Especially Knitters)

with Anne Barach
Sunday, January 9
1-4pm, \$35.00

Attention to all you knitters who don't think you need to know how to crochet, yes, I mean YOU! Being handy with a crochet hook is a valuable skill, even if you only ever use it for knitting projects. Slip stitch is used in a provisional cast on. Single, double and backward crochet is frequently used for borders, edgings and buttonholes of your knitted garments. There are also techniques for assembling knitted garments with crochet. Anne is going to teach you the basics as well as show you how to read a crochet pattern.

LEARN TO SPIN ON A SPINNING WHEEL

with Cat Lee
Saturday, January 15
1-4pm, \$35.00

Do you have a spinning wheel or access to one and want to learn how to spin? Here is your opportunity. Cat has been spinning for many years and is anxious to share her knowledge. This class will teach you how to set up your wheel and the basics of spinning. The supplies are as follows; spinning wheel, orifice hook, lightweight oil (3-in-1 or sewing machine oil), and carded wool (not combed top). Fine Points will have a supply of carded wool if you need to purchase some for the class.

LEARN TO KNIT

with Craig McDonald
Sunday, January 16
1-4pm, \$35.00

SOLD OUT!

There is something magical about taking yarn and watching it become fabric before your very eyes. This class is for those who have never knitted AND for those who need a refresher.

**MAGIC LOOP AND MINI SOCK**

(Or Say Goodbye to Double Points)

with Judi Pfancuff
Sunday, January 23
1-4pm, \$35.00

Learn to make socks (or other items based on small-diameter tubes such as mittens, gloves, hats and sleeves) without having to wrangle double-pointed needles! The ingenious, yet simple Magic Loop method uses one long circular needle to knit tubes of virtually any diameter. You'll enjoy this class whether you're an experienced sock knitter or have not yet knitted your first seamless tube. Confident beginners welcome.

CRAZY QUILT PATCHWORK MITTENS

with Cyndi Marshall
Saturday, January 29
1-4pm, \$35.00

Learn to design custom fit mittens that begin by tracing your hand to make a template. Then, the fun begins! Knit the mittens back and forth on 2 needles by knitting triangles, rectangles and squares as you mix assorted yarns with novelty fibers. Or, adjust the template to make fingerless mittens. Cyndi will enthusiastically lead you through the process. These knit up fast and you'll enjoy watching the pattern, texture and colors come together. Bring a pair of US 10 needles and an assortment of yarns.

ADAMAS SHAWL

with Cyndi Marshall
Sunday, January 30
1-4pm, \$35.00

Learn to knit lace and make a neckerchief version of this beautiful triangular shawl. If you can knit and purl with confidence, Cyndi says you are ready to knit lace. It's easier than you think! You are going to learn a lot in this class; how to make YOs (yarn overs), follow a pattern chart, shape a triangular shawl and block your finished piece. This shawl is designed by Miriam Felton and is a free pattern. Cyndi has received permission from her to teach this class, but you must download the pattern from Miriam's website, www.mimknits.com or Ravelry.
